On Mus. Nat Hist

2. Queen Square Place, Westminster.
S.W.

June 3d 1862

My dear Professor Owen,

I have examined the locality at South Kensington and also near the British Museum, and I am preparing for your use a block plan of each place shewing how the accommodation you require may be provided.

I know how strong the feeling is against any division of the Contents of the British Museum ~~besides~~ the feeling against the locality of Kensington.

Your plan I presume is for space and I think you will obtain at a Cost which will be quite triumphant if you can avoid Committing yourself absolutely either for a division, or for the locality of Kensington, and I believe the facts will be quite satisfactory for a judicial view of the Comparative advantages and disadvantages

Just as Carlisle Post Office
Can be seen.

I shall be ready for you
Thursday Morning at any time after
Nine Oclock. but I am busy all
Tuesday & shall be obliged if you will
Come Wednesday and Cannot therefore
have the pleasure of driving down to
Lee Jon.

With kind regards & Yours Sincerely

Geo Eyre
